

Project: Logan Northwest Park Project

Recipient: City of Logan, Utah

Location: Logan, Utah

Purpose: The requested funds will be used to continue work on an ongoing park project. This public park is adjacent to elementary school on 17 acres of City-owned land and serves the general public and the residents of northwest Logan. This low-income neighborhood park is in dire need of a conservation-efficient water management system. All the funding for the project will be allocated for the installation of an efficient water conservation system for this low-income neighborhood park. State and local funds have been allocated in amounts more than \$2 million to this project. This request will allow for the project to be brought to completion.

Amount: \$1,000,000
